A substantial grant from NASA was awarded to an SIUe faculty member that has taken a position with another university. The grant leaves with them and because of this 2 research assistants and an office support associate will be losing their positions on campus.

There will be a dues increase of 1.971% (.65 cents) beginning on January 1<sup>st</sup>.

The potential increase in insurance coverage premiums was discussed at length. The governor's office is proposing a multi-tier option. The current coverage level would have an increase of deductibles and prescription costs and the cost would double for what employees are currently paying – this would be considered platinum level. The gold level would be an increase of 1 ½ times also including deductible and prescription increases. The silver level would be an increase of 1 times current rates and would be lower coverage with higher deductibles and associated costs. The bronze level would be the lowest coverage and the highest deductibles also at an increase of cost to the employee. The Union intends to fight this.
